

**Ronald Massey**

**About Ronald Massey 1940-2008**

After high school I went to college for three years. After that I worked at Miami Inspiration mine for two years, then I worked for Motorola for 12 years. I started my own business (fur buying). I sold that business and started another business selling live bait all over the state and am still doing it.

I was married twice. I had no children with my first wife. I remarried and had four children. In 1973 two of them died in a car accident on the Superior highway. I now have two grandchildren. My wife passed away in 2004 from cancer.

**Now I am just a party animal.**
