About Anita Lee 1958-2008

Fifty Years! How do you put your life in a nutshell?

After high school I married and worked helping to put my husband through college. We had three great children -two boys and girl. And they have given me six wonderful grandchildren.

We divorced and I married again. I worked as a secretary to the Superintendent of the Miami Unified School District for twenty seven years. I am now retired and now live alone in a house on a hill that overlooks Globe.

A nutshell does not tell you all the ups and downs, the heartbreaks, the joys and happiness. Like you, I have experienced all. I have had a great life. I don't worry about what lies behind, or what lies ahead, just what lies within.
